Last Name : Lahbibi

First Name : Ezzeddine

Job interview

Hello Mr. Ezzedine Lahbibi, now I have reviewed your curriculum vitae, and I would like to ask you a few questions. Let's begin with your introduction.

My name is Ezzedine Lahbibi. I am 23 years old, and I have a diploma in web development. I am fluent in English, French, and Arabic . I possess solid skills in HTML, Java, and React, complemented by expertise in backend development using Node.js and MySQL. My experience spans both practical applications and theoretical understanding.

How do you typically spend your free time ?

I enjoy going to the gym regularly to stay fit and maintain a healthy lifestyle. This helps me stay disciplined, focused .

What are your impressions of our company ?

I believe your company values skilled professionals and offers excellent services to clients. You focus on innovation and hard work, which inspires people to choose this as a great place to work.

Why should we hire you ?

I am a hardworking and motivated person who always gives my best. I have the skills and dedication to do the job well and help your team succeed. I am confident that I can add value to your company, and you will be happy with your decision to hire me.

Can you share details about one of your recent projects ?

I recently created a web app to manage room reservations for a training center. The app makes it simple to book and organize rooms quickly and easily.

What programming language did you use to develop this application ?

I used only PHP to build the application.

What are your long-term career goals ?

In the future, I want to improve my skills and take on more responsibilities in the company. I hope to work in a role where I can lead projects, work with a great team, and help the company grow. My goal is to keep learning and make a positive difference for the team and the company.
